DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, drawn to a bamboo mat board, classified in class 144, subclass 333.
- II. Claims 4-7, drawn to a method for producing bamboo mat board, classified in class 144, subclass 380.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). The product as claimed can be made by another and materially different process, in the instant case, the mat board does not have to be refined by shaving.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Joseph Orlando on 09/16/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3725

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
